RESERVE PERSONNEL, AIR FORCE

The Reserve Personnel, Air Force appropriation provides the required funding to ensure accomplishment of the Air Force Reserve mission of providing trained units and individuals to augment the active force. Since the types of authorized training programs vary, the budget request is presented by pay category for the minimum training required by members. Schools and special tours of active duty reflect training required for a number of personnel to acquire and maintain skill level proficiency and to accomplish mission assignments. This appropriation includes funds for reserve personnel called to full-time active duty other than for training for administration and management of the Air Force Reserve, and recruiting for Air Force Reserve programs. Funds are also requested to finance the military personnel costs of students enrolled in both the Senior and Junior Air Force Reserve Officer's Training Corps (ROTC) and students participating in the F. Edward Hebert Armed Forces Health Professions Scholarship Program and Financial Assistance Grant Program.

The Air Force Reserve continues to restructure the mobility and fighter units to comply with the Department's policy to have 20 Fighter Wing Equivalent (FWE) standard size units.

The FY 1996 request of \$782.8 million includes price growth of \$18.2 million or 2.3 percent with a program decrease of \$4.3 million or 0.5 percent. Significant programmed conversions involve the C-141B and C-17 aircraft. We continue to request funds to convert, attain and maintain updated KC-135 Equipped and Associate aircraft and other equipment. We are continuing the structured education training program, Year of Training, to ensure reservists will be qualified in their specialty during every phase of their career. Other significant programmed requirements are funds to support recruitment of non-prior service personnel, 80 additional Junior Reserve Officer Training Corp Detachments, and the addition of 851 Senior ROTC Scholarship students.

The FY 1997 request of \$777.1 million includes price growth of \$15.4 million or 2.0 percent with a program decrease of \$21.1 million or 2.7 percent. Significant programmed conversions involve the C-141B and C-17 aircraft. We continue to request funds to convert, attain and maintain updated KC-135 Equipped and Associate aircraft and other equipment. Other significant programmed requirements are funds to support 23 additional Junior Reserve Officer Training Corp Detachments.

Growth will continue in the transition benefits program as Congressional legislation has extended this program through FY 1999. The cost for FY 1996 for initial and anniversary payments is \$9.9 million and \$13.2 million for FY 1997, but will result in future savings for the reserve personnel appropriation. Growth for FY 1996 is \$3.9 million and for FY 1997 is \$3.3 million.

RESERVE PERSONNEL, AIR FORCE

The FY 1996 request supports an end strength level of 73,969 which is 4,737 below the planned FY 1995 level of 78,706, and an average strength of 75,981 which is 1,101 below the planned FY 1995 average strength of 77,082. The FY 1997 request supports an end strength level of 73,160 which is 809 below the planned FY 1996 level of 73,969 and an average strength of 73,209 which is 2,772 below the planned FY 1996 average strength of 75,981.

All Selected Reserve personnel are assigned to manpower authorizations that have been validated as wartime requirements by active force manpower planners. The Air Force Reserve will continue to recruit and train reservists, modernize our equipment, and maintain individuals and units at the wartime readiness level as required of members of the Total Force.

Following are the economic assumptions employed in pricing the approved programs.

Pay Group B provides pay and allowances for Air Force Reserve officers and enlisted personnel not assigned to Reserve flying or mission support units, but who do have preassigned individual wartime mobilization assignments. Pay Group B individuals are designated as Individual Mobilization Augmentees (IMAs) and perform their training with the organization to which they are assigned. Personnel are authorized 24 to 48 paid inactive duty drill periods each fiscal year and an annual active duty training tour of 12 to 14 days (exclusive of travel time). These Reservists will meet active force shortages during the early phase of war or general mobilization. Included in the funds are basic pay, government's social security contributions, subsistence, quarters allowances, special and incentive pay, individual clothing and uniform allowances, travel, and retired pay accrual.

Program requirements are based on average strength and training participation rates for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience plus the applicable approved economic assumptions identified on Page 3 of this submission.

Part I - Purpose and Scope

Pay Group F provides for pay and allowances, including government's social security contributions, clothing, subsistence, travel, retired pay accrual and annual leave accrued at the rate of 2 1/2 days per month for enlisted personnel assigned to the non-prior service program. The purpose of this program is to recruit and train non-prior service personnel to fill specific unit vacancies not attainable from prior service enlisted sources. Individuals receive basic and technical training for their aptitude and Air Force specialty.

Program requirements are based on the average number of trainees for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience plus the applicable approved economic assumptions identified on Page 3 of this submission.

Part II Justification of Funds Requested

Expenses for non-prior service personnel are incurred for Active Duty for Training in the following categories:

Pay and Allowances: Pay and allowances for the average number of enlisted trainees attending initial active duty for training with follow-on technical training or on-the-job training with their assigned unit, depending upon their aptitude and Air Force specialty. The dollar rates used in computing the requirements include basic pay, retired pay accrual, government's social security contributions, basic subsistence allowance (BAS), basic quarters allowance (BAQ) and Variable Housing Allowance (VHA), when authorized, and annual leave accrued at the rate of 2 1/2 days per month. The average training time for these individuals is 116.21 days.

Subsistence-in-Kind: Subsistence-in-kind for the number of mandays used by enlisted personnel attending initial active duty training with follow-on technical training or on-the-job training with their assigned unit, depending upon their aptitude and Air Force specialty.

Individual Clothing and Uniform Allowance: Prescribed clothing for non-prior service enlisted personnel as authorized by the Secretary of Defense under the provisions of 37 U.S.C. 418.

Travel: Transportation for the average number of enlisted personnel who travel to Lackland AFB, TX. to perform initial active duty training and then proceed to a technical school for training in their Air Force specialty before returning to their assigned unit.

Part I Purpose and Scope

Mobilization Training provides for pay and allowances, including retired pay accrual, and travel of Air Force Reserve Selected Individual Ready Reserve (IRR) personnel called to active duty as authorized for Training; for Individual Ready Reserve personnel required to perform active duty for training to fulfill an enlistment commitment, and, for health professionals completing advanced training in critical wartime specialties who agree to a commitment to serve in the Ready Reserve. The minimum annual training requirements for health professionals for participation in the Selected Reserve is not less than 12 days of active duty for training each year during the period of service required by the agreement, and for participation in the Individual Ready Reserve is not less than 30 days of initial active duty for training with a minimum of five additional days of active duty for training each of the following years during the period of service required by the agreement.

Also included in this section are funds to screen Individual Ready Reserve members annually.

Program requirements are based on the estimated number of personnel who qualify for additional training for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience plus the applicable approved economic assumptions identified on Page 3 of this submission.

Part II Justification of Funds Requested

Training of Individual Ready Reserve personnel is programmed and budgeted in four categories as follows:

Readiness Training: Pay and allowances and travel for selected Individual Ready Reserve members performing Push-Pull Mobilization exercises as authorized in critical wartime positions. Training is a minimum of three days of active duty for training. The dollar rates used in computing these requirements include basic pay, retired pay accrual, government's contribution for social security, basic subsistence allowance (BAS) and basic quarters allowance (BAQ), special and incentive pay, and transportation and per diem, as authorized.

Career Enhancement Training: Pay and allowances and travel for personnel recruited into the Individual Ready Reserve in critical wartime specialties who require active duty for training to fulfill their enlistment commitments. The average number of training days required is five. The dollar rates used in computing these requirements include basic pay, retired pay accrual, government's contribution for social security, basic subsistence allowance (BAS) and basic quarters allowance (BAQ), special and incentive pay, and transportation and per diem, as authorized.

Health Professions Training: Pay and allowances and travel for health professionals completing advanced training in critical wartime specialties who agree to a commitment in the Ready Reserve. The minimum annual training requirements is not less than 30 days of initial active duty for training with a minimum of five additional days of active duty for training each of the following years during the period of service required by the agreement. The dollar rates used in computing these requirements include basic pay, retired pay accrual, government's contribution for social security, basic subsistence allowance (BAS) and basic quarters allowance (BAQ), special and incentive pay, and transportation and per diem, as authorized.

IRR Muster/Screening: Pay and allowances and travel for Individual Ready Reserve members selected to participate in the annual screening of the Individual Ready Reserve. Callup is for a maximum of one day. The dollar rates used in computing these requirements include basic pay, retired pay accrual, government's contribution for social security, basic subsistence allowance (BAS) and basic quarters allowance (BAQ), special and incentive pay, and transportation and per diem, or muster pay at the rate of 125% of the per diem rate, whichever is less, as authorized.

 Budget Program 2: Other Training and Support
 Budget Activity 2R: School Training

Part I Purpose and Scope

School Training provides for pay and allowances including government's social security contribution, subsistence, travel, per diem, and retired pay accrual for Air Force Reserve personnel performing tours of active duty to attend formal school. The school program for the Air Force Reserve is designed to increase the mobilization potential and readiness skill levels of Reservists through training that cannot be achieved through other means, and also to cross train in related career fields. The courses vary from approximately 5 to 339 days in length. Funding includes the actual period of instruction plus travel time and leave accrued at the rate of 2 1/2 days per month for courses of 30 days or more. The courses are the same as those offered to the regular Air Force, and with minor exceptions, a Reservist may attend any course offered to members of the regular Air Force.

Program requirements are based on the estimated number of personnel who will require formal school training for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience plus the applicable approved economic assumptions identified on Page 3 of this submission.

Part II Justification of Funds Requested

The school tours are programmed and budgeted in seven separate categories as follows:

Career Development Training: Professional Military Education (PME) courses vary in length from one and two week seminars at Air University and the National Defense University to a full academic year in resident courses such as the senior service schools. The level of training remains fairly constant in this category. Experience has dictated greater reliance on formal schools, rather than correspondence courses and OJT for these specialties.

Initial Skill Acquisition Training: Courses provide initial technical training in other than aircrew skills. It includes initial skill training of officers and enlisted personnel and retraining of officers and enlisted personnel into another military occupational field. The training is conducted primarily in Air Education and Training Command schools for both active force and Reserve students. Many of these courses are self-paced. Specific course selection and length of training are tailored to the individual's previous experience. Courses vary in length from two weeks to eight months. The level of training in this category is determined by actual and projected vacancies in critical skills. Many of the replacements now and in the future will be prior service enlistees who will retrain into a different Air Force specialty.

Officer Training School: Officer Training School (OTS) provides a 12 week course of precommissioning training for selected enlisted personnel. Upon successful completion, students are tendered appointments as 2nd Lieutenants, Air Force Reserve, for an indefinite term. Noncommissioned applicants for UPT and UNT must complete this course and receive a commission prior to entry into UPT or UNT. The level of this training is determined by the phasing of entries into UPT and UNT. Also included is a program to improve the officer manning in non-rated, non-professional company grade officer positions. It provides an avenue for qualified enlisted personnel to obtain a commission and advance to officer positions. Request also includes associated travel days and annual leave accrued at the rate of 2 1/2 days per month.

Recruiter Training: Provides training of carefully selected Air Force Reserve enlisted personnel to enhance their capabilities in recruiting. Personnel are assigned directly to the Air Force Reserve recruiting program. Courses are conducted by Air Education and Training Command and are of four weeks duration plus associated travel and annual leave accrued at the rate of 2 1/2 days per month.

Reserve Personnel, Air Force
School Training (Continued)

Refresher and Proficiency Training: Provides training necessary to attain the required level of proficiency in the specific military specialty for which a member has been initially qualified. It includes advanced technical training in non-aircrew skills, on-the-job training for OTS graduates, and qualification training for aircrew members in specific aircraft. Also included are training for flight medical personnel, instructor pilot courses, and survival training required for all Air Force personnel. Length of training depends on the individual's prior qualifications. The longest technical training course is of 10 weeks duration; the shortest, one week. The longest aircrew course is the 26 week TAC Operation Training Course; the shortest, Water Survival Training for four days.

Undergraduate Pilot/Navigator Training: Authorized only for commissioned officers in the Air Force. Only undergraduate programs are included here. These produce rated pilots and rated navigators. Graduates proceed to combat crew training for the particular aircraft and missions to which they will be assigned. The basic Undergraduate Pilot Training (UPT) course is of approximately 49 weeks duration; and Undergraduate Navigator Training (UNNT), 33 weeks. Variations in levels of training are based upon phasing of entries to meet programmed production. Also included is associated travel and annual leave accrued at the rate of 2 1/2 days per month.

Unit Conversion Training: Formal school courses resulting from a change in unit mission, aircraft model, or support equipment. Most of this training is for aircrew personnel, however, some advanced technical training is also included for non-aircrew personnel.

Part I Purpose and Scope

Special Training provides pay and allowances including government's social security contribution, subsistence, travel, per diem, and retired pay accrual for Selected Air Force Reserve officers and enlisted personnel who will perform tours of paid active duty for training other than those covered by Pay Groups A, B, F, and School Training. Tours include JCS Exercises, USAF Mission Support, Conversions, Recruiting and other special training necessary to improve combat proficiency and to increase mobilization readiness of Air Force Reserve units.

Program requirements are based on the estimated number of personnel who will require additional active duty training, other than Annual Training, Unit Training Assemblies and Additional Flying Training Periods, for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience plus the applicable approved economic assumptions identified on Page 3 of this submission.

Part II Justification of Funds Requested

The special tours are programmed and budgeted in nine separate categories as follows, plus one additional mission made available for the prior year:

Competitive Events: Air Force Reserve participation in the annual Congress of the Interallied Confederation of Reserve Officers (CIOR), a semi-official Reserve organization which cooperates with and supports the policies of the North Atlantic Treaty Organization (NATO). Each year, the CIOR holds an annual Congress in one of the NATO countries and, in conjunction, a series of military pentathlon-type competitions are held involving Reserve officer teams from member nations as part of the Congress' activities. The competition consists of a running obstacle course (500 meters and 50 obstacles), a swimming obstacle course (50 meters and four obstacles in utility uniform), shooting (rifle, pistol, and submachine gun), and orienteering (10-14 kilometer land navigation course using map, compass and visual orientation).

Command/Staff Supervision: Inspection and staff assistance visits made by higher headquarters to subordinate units. The effectiveness of training is reviewed, the organizations capability to respond to wartime tasking is evaluated and compliance with directives is checked. The tours also enable newly assigned personnel to become acquainted with their positions.

Exercises: Air Force Reserve participation in joint training exercises. The Reserve members are integrated with the active forces to provide required expertise. The Reserve personnel may function in command positions as aircrew members or as specialists in any field.

Management Support: Day to day planning and supervision of Reserve training functions. Examples include the writing and coordinating of plans for exercises and training assemblies, development of Reserve policies and programs and retraining of obligated Reserve members who do not participate satisfactorily.

**Reserve Personnel, Air Force
Special Training (Continued)**

Operational Training: Training directly related to the members wartime tasking. Examples include airborne support training during which aircrew members drop Army paratroopers, aircraft maintenance training, aircrew flight and ground training, civil defense and natural disaster training, aircraft ferrying, loadmaster and aerial port training involving loading of aircraft and operation of high density cargo handling facilities. Training is normally of short duration approximating five days or less.

Recruiting/Retention: Tours permit the Air Force Reserve to assist the recruiting force in maintaining the strength authorized by Congress. Individual members of the Selected Reserve with definitive skills visit schools, separation centers and prior service personnel at home and attend public functions to discuss the advantages and benefits inherent in the Air Force Reserve mission.

Service Mission/Mission Support: Training members receive from direct support of the active military forces. This includes Air Mobility Command missions, Tactical and Strategic, and support for other projects performed with and for the active force such as Operation Restore Hope, Provide Comfort and Peacekeeper Challenge.

Unit Conversion Training: Additional training required by Reserve personnel to attain proficiency in their wartime specialty due to unit aircraft conversions or other mission changes.

Drug Interdiction/Counter narcotic Activities: Direct support of drug interdiction/counter narcotic activities. Funds are provided to Air Force Reserve by reprogramming, on an annual basis, from Drug Interdiction/Counter narcotic, Defense Appropriation.

Part I Purpose and Scope

Education Benefits provides payment to the Department of Defense Education Benefits Fund, a trust fund. The program is governed by Title 10 U.S.C., Chapter 106, to fund educational benefit payments in their entirety for eligible individuals in the Selected Reserve. This program is budgeted on an accrual basis. Actual payments to individuals are made by the Veterans Administration from funds transferred from the Trust account.

Part II Justification of Funds Requested

All individuals enlisting, reenlisting, or extending for not less than six years in the Selected Reserve beginning July 1, 1985, except those who have received a commission from a Service academy or completed an ROTC scholarship program are eligible to receive educational assistance unless they are entitled to assistance under Chapter 30 of Title 38 U.S.C.. The individuals must also meet initial training and high school diploma or equivalency requirements. Cost estimates are actuarially based and reflect eligibility estimates adjusted by an estimate of ultimate benefit utilization and partially offset by an estimate of interest earned on investments of the Education Benefits Fund. The program will provide funds adequate to allow for one of three levels of assistance. These levels are \$190.00 per month for full-time education enrollment, \$143.00 for three quarter time enrollment and \$95.00 for half time enrollment, and an appropriate reduced rate as determined by the Secretary of Veterans Affairs for less than half-time enrollment. Vocational/technical (VOTECH) training benefits for Chapter 106 participants is included beginning 1 October 1990. The maximum total benefit that can be paid is \$6,840. Tutorial assistance programs may not exceed \$100 per month, nor aggregate more than \$1,200, and are in addition to the amount of educational assistance a member may receive. This program is made permanent by the new GI Bill Continuation Act, P. L. 100-48.

The Board of Actuary during their review of benefit utilization determined the Air Force Reserve had no unfunded liability payments.

The following table displays the number expected to meet the initial eligibility requirement of an enlistment, reenlistment or extension for six years.

This program was established to obtain adequate numbers of commissioned officers who are qualified in the various health professions.

Students participating in the program will be commissioned in the Air Force Reserve. They will be detailed as students at accredited civilian institutions for the purpose of acquiring knowledge or training in a designated health profession. In addition, they will receive military and professional training and instruction for a period of 45 days during each year of participation in the program. Except when serving on active duty for training, each student will receive a stipend of \$843 (FY-95) per month. When serving on active duty for training, students will receive the full pay and allowances of a Second Lieutenant (pay grade O-1). The program was implemented in mid-FY 1973.

A two year program for Certified Registered Nurse Anesthetists (CRNA) was established in September 1989. The first CRNAs graduated in FY 1991. In FY 1991 Clinical Psychology and Optometry were added. In FY 1992 a two year Dentistry program was included.

The National Defense Authorization Act for Fiscal Years 1990 and 1991 established a Financial Assistance Program for physician residents training in specialized medical areas critical to the military. The program began in FY 1990 with 83 physicians and will be expanding to provide physicians required by the Department of the Air Force in critical specialties. Specialties currently listed are Family Practice, Pediatrician, Emergency Medicine, Urology, Orthopedic Surgery, OB/GYN, Radiology, Oral Surgery and Endodontics.

Part II Justification of Funds Requested

Stipend: A monthly stipend to members participating in the F. Edward Hebert Armed Forces Health Professions Scholarship and the Financial Assistance programs. On 1 July 1994 the amount of the monthly stipend increases from \$824 to \$843. The estimated number of scholarship quotas for FYs 1994-1995 is 1,405.

Financial Assistance Program: A grant to physician residents training in specialized medical areas in return for an active duty service obligation between four and eight years. The program is established by the National Defense Authorization Act for Fiscal Years 1990 and 1991.

Pay and Allowances, Active Duty for Training: Pay and allowances for officers on active duty for training for 45 days annually. The dollar rates used in computing requirements include basic pay, government's social security contributions, basic subsistence allowance (BAS) and basic quarters allowance (BAQ), and special and incentive pay as authorized.

Part I Purpose and Scope

Funds provide issue-in-kind uniforms for students enrolled in the Junior ROTC program at secondary education institutions. The dollar rate is a composite of complete issues for new members and partial replacements for other members. This is the only expense incurred by this appropriation for Junior ROTC members. The National Defense Authorization Act for Fiscal Year 1993 authorized, beginning in FY 1993, an increase of 80 additional detachments to expand the programs that instill in students in United States secondary educational institutions the values of citizenship, service to the United States, and personal responsibility and sense of accomplishment. Detachments are scheduled to continue to increase through FY 1996.
